01

Who We Are

Company culture is the product of a
company's values, expectations and
environment."

Building Trust, Driving Innovation

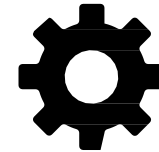

Since 1998, **German Technical Services (GTS)** has been redefining excellence in **MEP and ELV solutions**. Founded in Beckum, Germany, and rooted in Saudi Arabia, we deliver innovative, reliable solutions that power progress and shape the future.

We believe in doing business with integrity, collaborating closely with our partners, and pushing the boundaries of what's possible.

Our core values—**Cooperation, Honesty, and Innovation**—guide every decision we make.

At **GTS**, we set the standard for quality and reliability. We are the trusted partner of choice, committed to excellence and dedicated to building a better tomorrow.

Honesty

Innovation

A Mission Statement is your purpose,
and a Vision Statement is what you
are driving to."

VISION

To be the trusted partner of choice for our customers and the preferred workplace for top talent, setting the standard for excellence in MEP solutions.

MISSION

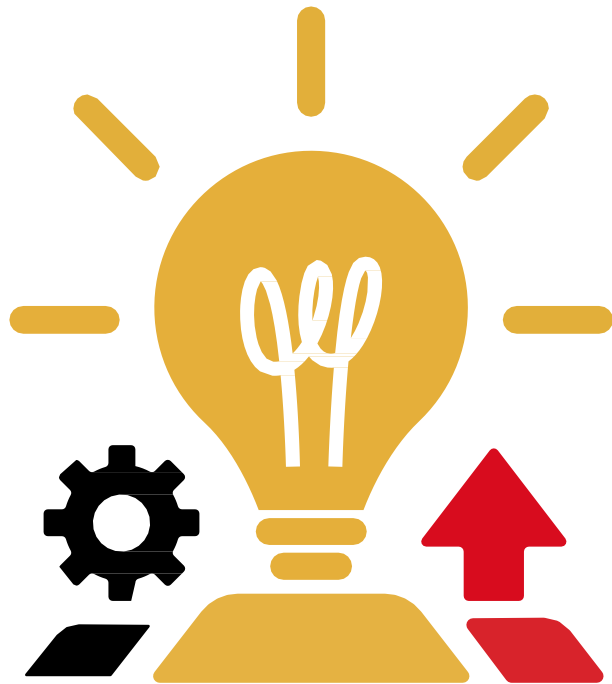

At GTS, we deliver innovative and reliable MEP solutions with honesty and cooperation at our core. By fostering a culture of trust, collaboration, and continuous improvement, we set the standard for excellence—building lasting partnerships and attracting top talent to drive progress

02

What We Do

"Empowering progress through
innovative solutions and
unwavering commitment to
excellence."

- **Design-Build MEP Services**

GTS prepares engineering design drawings and specifications for MEP systems, adhering to client criteria. Additionally, we develop project budgets, conduct systems analysis, and generate construction documents and reports for both existing and proposed MEP systems.

- **MEP Construction Management**

MEP construction management is crucial for project success. GTS oversees all MEP aspects from tendering to client delivery, including procurement, testing, commissioning, cost management, on-site supervision, logistics coordination, and quality assurance.

- **Testing & Commissioning**

Our expert technicians conduct testing on various systems including medium and low voltage switchgears, cables, pumps, air handling units, fire alarm systems, distribution boards, and more. All testing follows local requirements. GTS also performs re-commissioning to address ongoing issues in existing buildings and retro-commissioning for previously un-commissioned projects.

Mechanical Scope

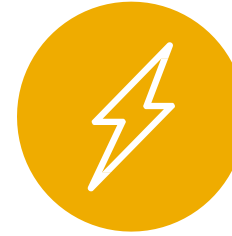

- **Heating, Ventilation and Air Conditioning Systems**

- AHU, PACU, VRV, VRF, DX
- Chilled Water Systems
- Indirect Direct Evaporative Cooling
- Exhaust and Smoke Exhaust
- Ducting and Piping Systems

- **Building Management System**

- **Plumbing and Fire Fighting**

- Hot and Cold-Water Supply Systems
- Drainage and Waste Systems
- Compressed Air Systems
- Water Filtration Systems
- Irrigation Systems
- Dry and Wet Sprinklers System
- Clean Agent Systems (FM200, Novec, CO2, Foam)

Electrical Scope

- **Power & Distribution Systems:**

- Transformers
- Power Distribution (MDBs, DBs, PPs, LPs)
- Power and Lighting Systems
- Busway Systems
- Photovoltaic Systems

- **Control & Backup Systems:**

- Lighting Control Systems
- UPS and Battery Systems

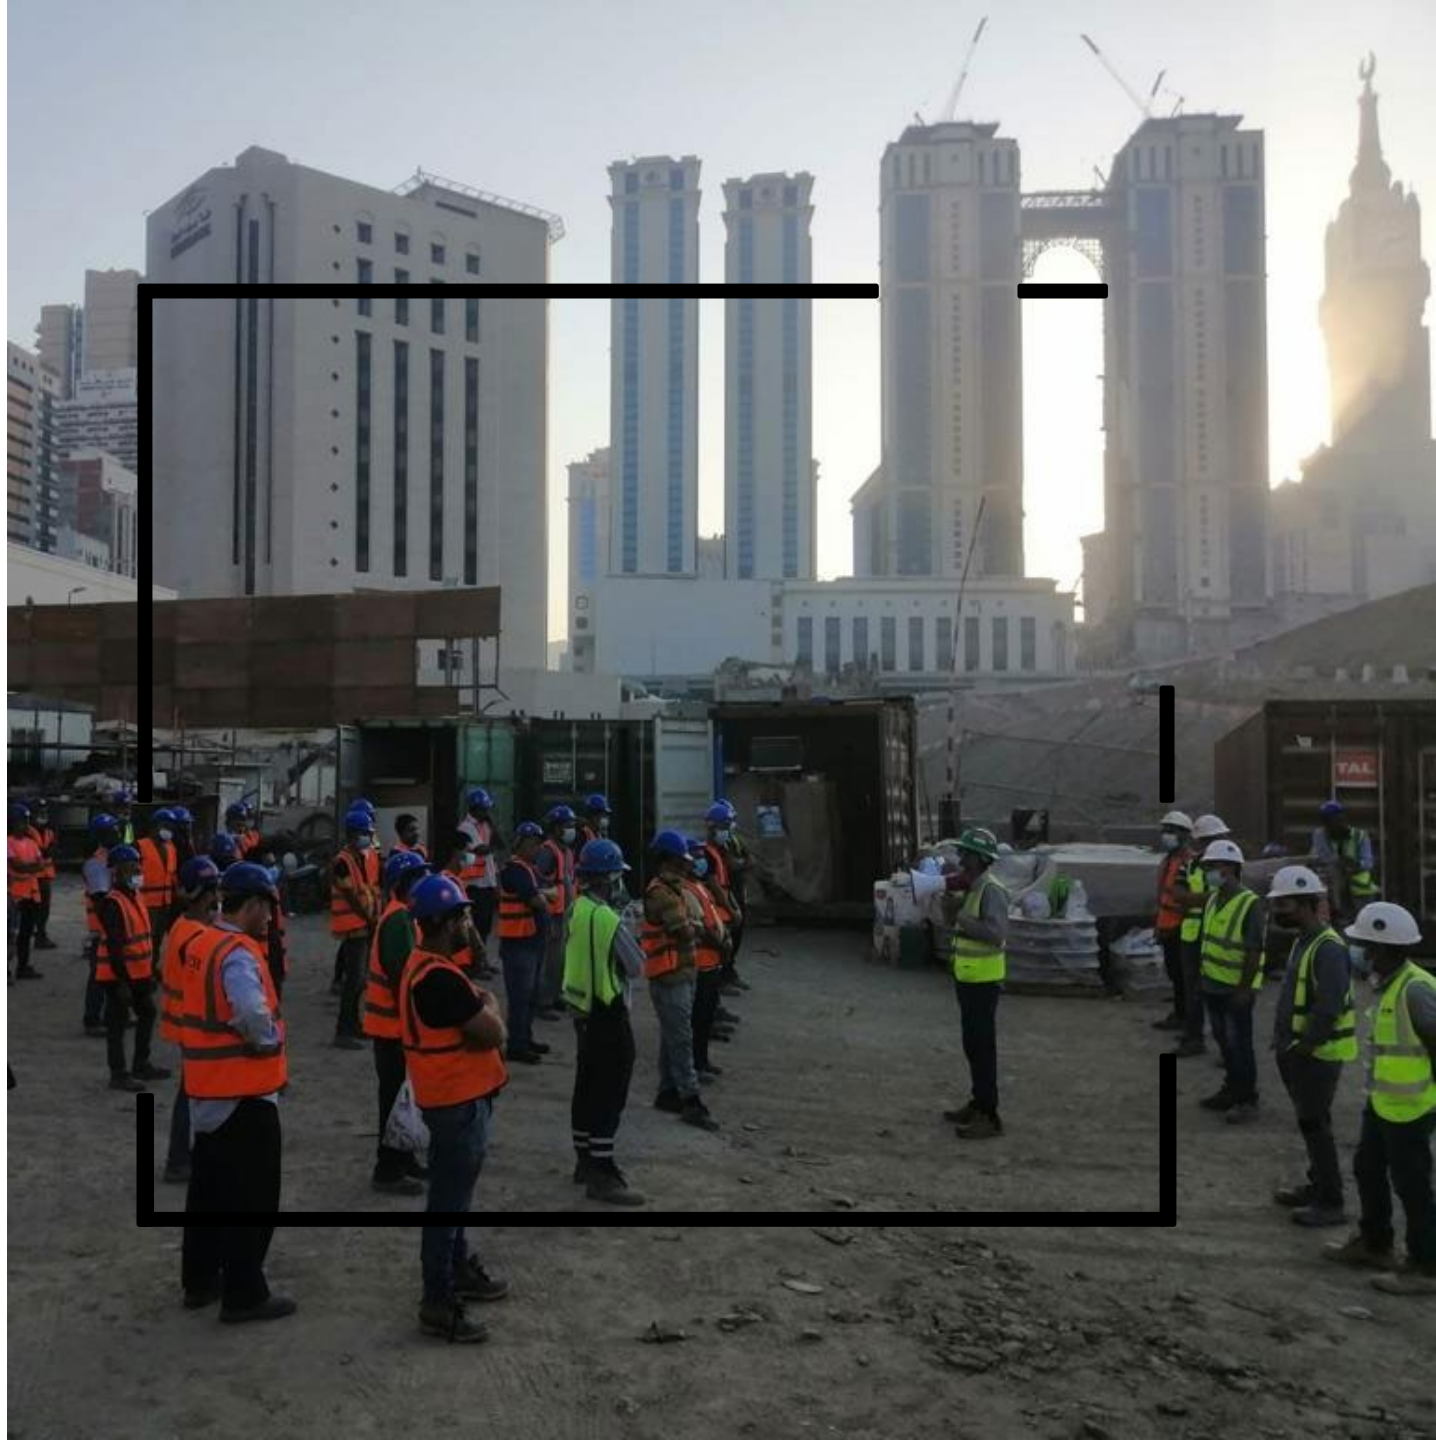

- **Systems Integration**

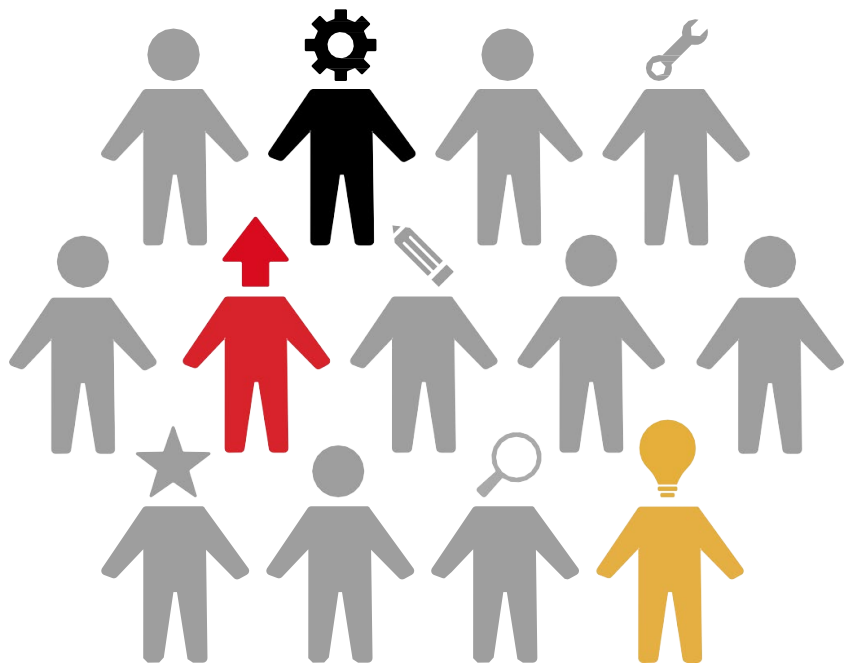

- **Extra-Low Voltage (ELV) Systems:**

- Fire Alarm Systems
- Security Systems (CCTV, Access Control, Intrusion Detection)
- Public Address Systems
- Structured Cabling Systems
- Data and Telephony Systems

| Our Team

Great things in business are never
done by one person.
They're done by a team of people."

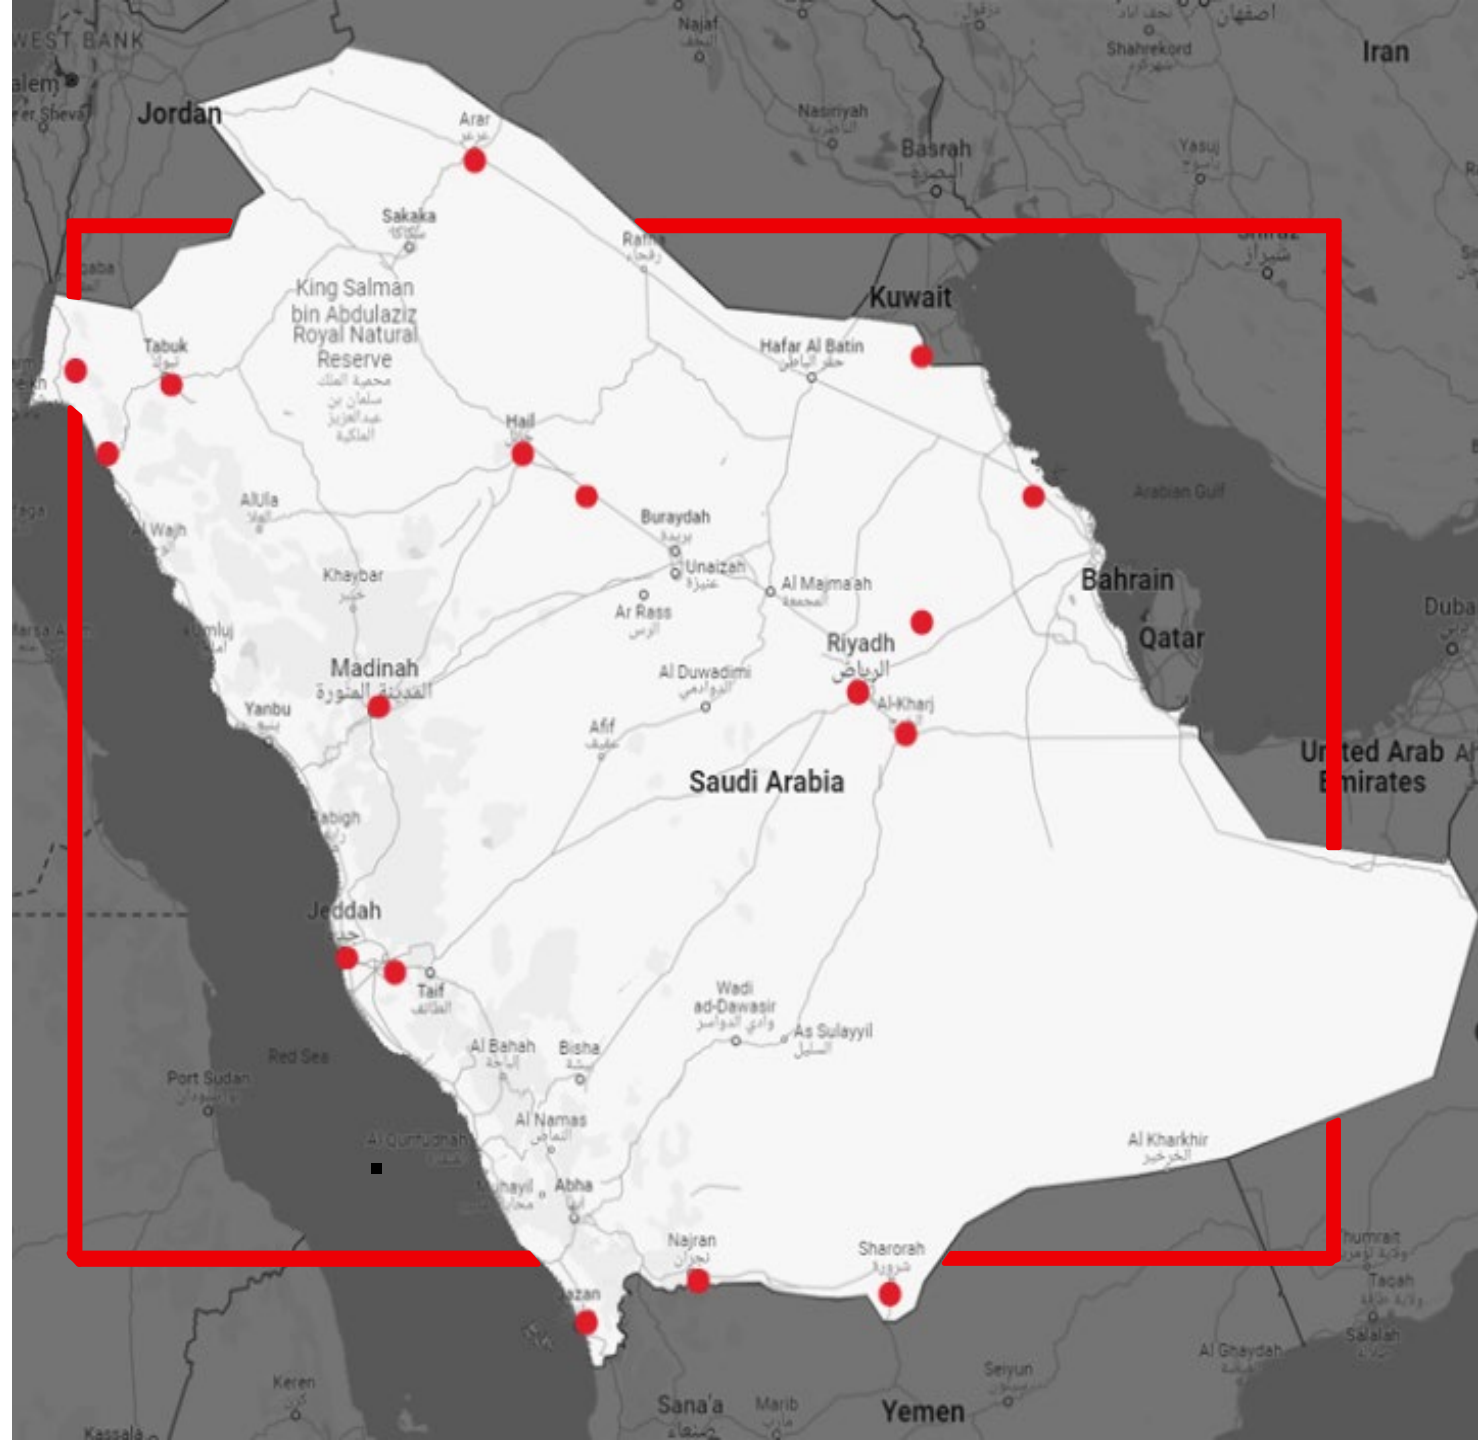

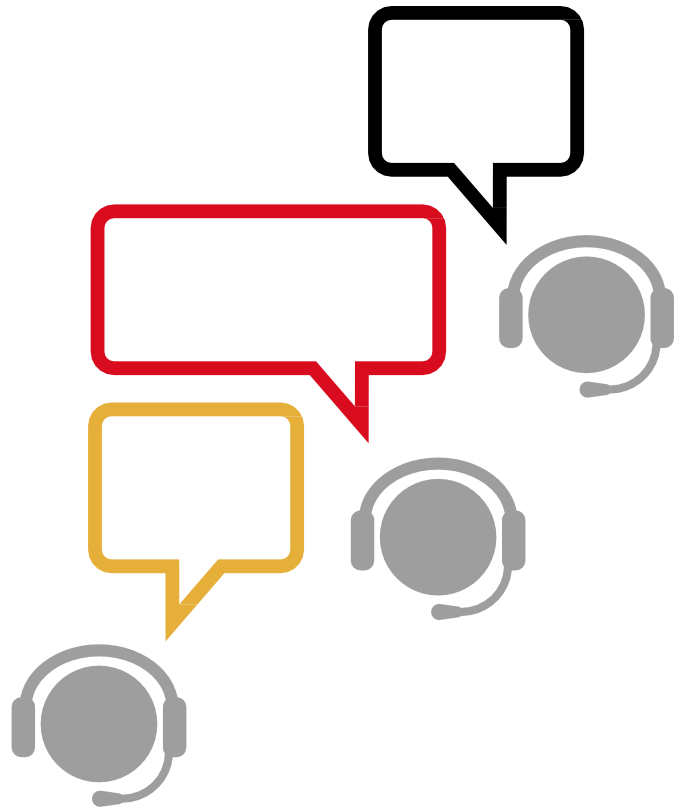

Our staff represents a crucial asset, and we are dedicated to recruiting exceptional engineers while fostering their professional development.

Continuous investment in employee education through seminars, workshops, and conferences ensures our team remains highly qualified and motivated.

With extensive industry experience, our workforce is well-equipped to execute diverse projects in accordance with the highest standards and quality control practices.

04 GTS Customers

Customer service should
not be a department.
It should be the entire company."

Our client base comprises distinguished entities in Saudi Arabia, representing diverse sectors such as industrial, commercial, public, and residential real estate.

The showcased partial list illustrates our extensive clientele universities, hotels, shopping centers, corporations, mosques, palaces, residential complexes, hospitals, law enforcement agencies, and various government structures, among others.

05 Our Partners

Business is not about one's own
success or failure, but how successful
we make our partners."

05 Major Projects

The Cove - Jeddah

MV + Electrical Supply & Installation

Main Contractor: Al-Afaq LeMuqawalat Co

Owner: Ezdihar Real Estate Development Co.

Scope of Work in THE COVE - Jeddah: Supply & Installation

- Electrical Systems:**
 - Power Distribution Systems**
 - Lighting Systems**
 - Lighting Control Systems**
 - Emergency Power Systems**
 - Communication Systems**
 - Security Systems**
 - LC Systems**

Similar experience

GTS has experience has constructed a vast number of projects similar in nature and complexity. Our highly skilled team has extensive experience with MEP projects. Our management team thoroughly understands the MEP construction challenges in this region and is familiar with construction requirements in addition to the capabilities of subcontractors and suppliers. GTS had established the partnerships with manpower suppliers and manufactures for general & special items of all MEP systems to these types of projects.

MASAR CP3 - Makkah

Installation of MEP and Low Current Systems

Main Contractor: Nesma & Partners

Owner: Umm Al Qura for Development & Construction Company

Scope of Work in MASAR - CP3 - Makkah: Supply & Installation without Long Lead

- Installation of Mechanical Systems:**
 - HVAC (Heating, Ventilation, and Air Conditioning) Systems**
 - Fire Protection Systems**
 - Water Supply Systems**
 - Drainage Systems**
 - Sanitary Systems.**
 - Irrigation Systems**
- Installation of Electrical Systems:**
 - Power Distribution Systems**
 - Lighting Systems**
 - Emergency Power Systems**
 - Communication Systems**
 - Security Systems**
 - LC & BMS Systems**
